

## Holstein Québec 2007 Picnic, a real success!

After pouring rain the day before, the sun finally came out on Saturday 21 July for the annual Holstein Québec picnic held at Ferme St-Pierre et fils in Rimouski. More than 3000 people gathered on a magnificent site and several of them participated in CIAQ's drawing under the theme of the young sire testing program PEP.

Christian Cournoyer of Saint-David de Yamaska won the first prize, a diagnosis from Service Tandem. The 2<sup>nd</sup> prize, two doses of sexed semen from the sire Frosty, went to Joël Morneau from Ferme Agribar inc. in Saint-Arsène, while Cédric Laquerre of Saint-Casimir won two chairs identified to CIAQ. Three Goldwyn hats were also drawn among the participants. The winners were Johanne St-Laurent of Rimouski, Robert Lefebvre of Saint-Félix-de-Kingsey and Daniel Dancause of L'Islet.
